

BL-1000/1200 Super Large Automatic Vertical Packaging Machine

Dustial Machinery® BL-1000 super large automatic packaging machine can meet the packaging requirements of automatic bag making, filling and sealing of packaging films with a maximum width of 1 meter, and the maximum bag capacity can reach 14 liters; BL-1200 super large automatic packaging machine can also meet the packaging requirements of packaging films with a maximum width of 1.2 meters, Bag capacity up to 35 liters. According to the heat sealing characteristics of different packaging materials, the machine can be equipped with a standard sealing device to apply to various heat-sealable composite films, or a special pulse sealing device for single-layer PE film, which can be used in a wider range.

Feature

- Simple in structure and reliable in control
- Stainless steel frame (standard)
- Mild steel (surface painted) version can be selected
- Standard thermal seal for laminated film (standard version)
- Instant impulse seal for single-layer PE film (Option)
- Different operating languages available
- PLC and touch screen interface controller ensure easy operating
- Fits for working with different fillers or weighers

Technical specifications:

Model	BL-1000	BL-1200
Film width	500-1000mm	600-1200mm
Bag length	100-600mm	100-800mm
Speed	Max. 25 bpm	Max. 20 bpm
Power supply	220V, 50/60HZ, 5Kw	220V, 50/60HZ, 6Kw
Air requests	0.9m3/min, 0.6Mpa	0.9m3/min, 0.6MPa
Outer dimension	2170x1780x2740mm	2170x1780x3040mm
