

LK-301 Automatic curry paste packaging machine

Automatic curry paste packaging machine suitable for automatic packing paste product in food, medicine, chemical and other industry, product like honey, fruit jam, ketchup, cream, oil, shampoo, shower gel, facial cream, pesticide and etc.

1. Computer control, intelligent temperature control system, color mark tracking device.
2. The mechanical structure rational, the main machine speed is controlled by worm gear motor and adjust speed motor, easy to adjust speed.
3. Low noise, stable system, simple operation.
4. All the contact part of the packing machine is made from stainless steel, clean and safe, easy for cleaning.

Technical Parameters

Material	stainless steel
Filling range	10-100ml; 20-200ml; 30-300ml;50-500ml;100-1000ml
Function	weighing, filling, sealing and cutting
Working speed	about 18-26 times/min
Sealing type	3 side sealing and back sealing type
Formed pouch width	30/34cm
Voltage	AC 220V/110V 50-60Hz
Power	500W
Dimension	1170*540*1550mm
Weight	160kg
