

DX-7 Automatic milk powder packing machine

This machine can pack coffee powder, wheat flour, flour, etc. it is suitable for different powders and high-speed packaging to meet the needs of bag making of various sizes.

Machine Parameter

Model	DX-7	DX-8
Measure method	Volume quantitative	Volume quantitative
Making bag size	(L)60-300mm, (W)60-200mm	(L)80-350mm, (W)80-250mm
Filling weight	10-5000g Need change molds	10-5000g Need change molds
Packaging precision	$\leq 1\%$	
Packaging speed	25-60bag /min Depend on the product characteristic	
Power supply	Three phase 380/220V 50-60 Hz	6 kw
Pressure	6-8 kg/cm ²	0.2m ³ /min
Weight	700kg	950Kg
Dimension (mm)	1300×1500×2600mm
