

PM300 Mini Preformed Pouch Packing Machine

The min daypack pouch machine is an industry leader in the innovation of premade pouch machine in china. The PM300 allow you to move away from costly, labor-intensive manual bagging to a world of affordable automation. Capable of interfacing with a multitude of fillers and designed to be simple to use with a small footprint with the ability to run your existing premade pouches.

Special machine for gusset bags, about 6 bags/minute

Technical Specifications:

Model:	PM300
