

ZG1 Semi Automatic Skincare Filling Machine

A semi-automatic skincare filling machine is a device that partially automates the filling process for skincare products. These machines are designed to fill different types of skincare products, such as creams, lotions, gels, and serums, into various containers, such as bottles, jars, and tubes. Here are some features of a semi-automatic skincare filling machine:

1. **Manual loading and unloading:** The machine requires manual loading of the containers and unloading of the filled containers.
2. **Automated filling:** The machine is equipped with a dosing system that automates the filling process, ensuring accurate and consistent filling of each container.
3. **Multiple filling technologies:** Semi-automatic skincare filling machines can use different filling technologies, such as piston, peristaltic, and gear pumps, to fill products of different viscosities.
4. **Easy to operate:** The machine is designed to be easy to operate, with a user-friendly interface that requires minimal training.
5. **Flexibility:** Semi-automatic skincare filling machines can handle different container sizes and shapes, making them suitable for a range of production needs.
6. **High accuracy:** Semi-automatic skincare filling machines ensure precise and consistent filling of each container, resulting in high product quality.
7. **Cost-effective:** Semi-automatic skincare filling machines are less expensive than fully automatic machines and offer a good balance of efficiency and affordability.

Overall, semi-automatic skincare filling machines are ideal for small to medium-scale production of skincare products. They offer efficient and accurate filling of different products into various containers, providing consistency and quality in production.

Technical Parameters

Model	ZG-1
Power	220W
Air Pressure	0.4-0.6MPa
Filling Speed	1-50 bottles/min
Filling Accuracy	±1%
Dimension(L*W*H)	500*580*1380mm
Filling Range	10-20ML. 25-250ML.
	50-500ML.100-1000ML.
	250-2500ML. 1000-5000ML
Weight	60 Kg
Filling Material	Juice, Oil, Water, Sauce, Toothpaste, Cosmetic Cream, Hand Cream, Honey and etc
Note: If you need special customization. please feel free contact me.
