

SF-FJ1 Automatic Jar Bottle Coffee Powder Filling Machine

The powder filling machine is suitable for filling superfine powder products such as food and daily necessities, such as coffee powder, milk powder, cocoa powder, matcha powder, protein powder, chilli powder, curry powder, turmeric powder, corn starch, tapioca powder, etc.

Features

1. This machine is suitable for filling bottles, cans, boxes and other containers. One machine can be used for multiple purposes, increasing the output value of the equipment.
2. The screw measurement is driven by a servo motor, which has the advantages of high precision, fast speed, long life and stable performance.
3. The transparent combination hopper can observe the material status in real time and can be easily cleaned and maintained without tools.
4. Equipped with multiple high-precision induction electric eyes, no filling if there is no bottle, and no filling if there is no powder.

Technical Parameters

Model	SF-FJ1
Filling speed	15-30 bottles/min
Measurement range	100-5000ml(Customizable)
Accuracy	±1%
Container size	W: φ30-160mm, H: 50-260mm(Customizable)
Hopper capacity	50L/hopper
Power	220V, 50/60Hz, 3kw
Machine weight	300kg
Machine size	2000(L)*1200(W)*2100(H)mm
