

LT-ZB200F 2-200g Pneumatic Four Sides Sealing Packing Machine With PLC Control Panel

This machine is a fully automatic multifunctional bag packing machine that integrates weighing, packaging, sealing, bagging, bag cutting, etc.

It has a wide range of applications, high packaging accuracy, stable quality, and can pack a variety of granular and powder products.

A variety of composite heat-sealable films can be packaged. It can do four-side sealing, three-side sealing, and back sealing to meet different sealing requirements; it adopts a new upgraded pneumatic control system and panel, and equipped with a film feeding device, which can use heavy roll film and pull bags are more convenient.

Application:

This automatic granule packing machine is made of stainless steel with stable performance, lower consumption, high efficiency, safety and cleanness, it's an ideal equipment which can be used for packing food, tea, herb, dry powder, granules, seeds, grain, wheat, beans, small hardware and components etc.

Technical Parameters

- Model: LT-ZB200F
- Voltage: 220V/50HZ 110V/60HZ
- Rated Power: 500W
- Packing Speed: 10-15bags/min (Depending on the filling materials and filling weight)
- Weighing Range: 2-200g (adjustable)
- Error Range: About \pm 1% (Depending on the materials)
- Suitable Film: Heat sealed film
- Hopper Size: 20*20*24cm
- Max Film Width: About 28cm (can be customized)
- Max Bag Length: 20cm
- Max Bag Width: 14cm
- Machine Size: About 55*60*164cm (L *W*H)
