

DKX50 Horizontal High-speed Carton Sealer

DKX50 high-speed horizontal carton erector, the machine adopts touch screen menu operation, suitable for automatic box erection, bottom folding and bottom sealing functions of various cartons. It can connect the case packing machine and the case sealing machine to form a production line of opening, packing and sealing.

The machine speed is up to 30 cases per minute, which can be working at a constant speed for 24 hours.

Wide range of applications: e-commerce sealing, factory sealing, warehouse sealing, express cloud warehouse sealing.

Specification:

Specification:

Model	DKX50
Carton Size	L240~510mm/W190~400mm/H120~400mm
Table height	960-1000mm
Speed	10-30pcs/min
Dimension	L2120*W1410*H2000mm
Power supply	220V 50HZ
Air Source	0.5-0.7Mpa
Power	750W
Tape	W48mm-W60-75mm
Machine weight	600kg
