

DC-890A Fully Automatic Multi-row/Single-row Back-sealing Packaging Machine

DC-890A fully automatic single/double-row back-seal packaging, suitable for back-seal strip packaging of liquid, powder, granular, and other materials in the food, pharmaceutical, and daily chemical industries.

The whole machine is easy to operate. Simply input values into the system to adjust bag length, production time, and store customer product information parameters. It meets customers' demands for high capacity, high-speed production, and back-seal packaging.

Technical Parameters

Model	DC-890 (multi-row customized according to demand)	DC-890A (single-row)
Optional Width	11-45mm (Width cannot be changed once selected)	
Packaging Length	30-180mm (Adjustable)	
Packaging Speed	20-70 bags/row/minute	30-50 bags/row/minute
Packaging Volume	1-50ml	1-40ml
