

HC-CS Automatic Fold Carton Sealer

Automatic fold carton sealer is a set of automatic fold and packing machines, that can be used to support the automatic packaging line, automatic up and down sealing tape multi-channel packaging, after the unmanned packaging, high working efficiency, widely adapted to the printing of painted greeting cards, photo albums, photo frames, medicine, electronic daily cosmetics production industry.

Features:

1. Sealing and packing at the same time, high speed, high efficiency, and small volume
2. PLC automatic program control, simple and convenient operation, low failure rate
3. Using imported photoelectric detection carton packing position, can automatically pack 1-3 lanes
4. Can be a single operation, can also be used with automatic packaging line
5. All actions are automatically completed to achieve unmanned packaging

Technical Parameter

Available Carton Size	L200-600*W150-500*H120-500mm
Working Platform Height	680-800mm
Speed	15-25 cartons/min
Power	220V/50HZ
Air	5 kg/cm ²
Machine Frame Material	CS with painting
Machine Dimension	L2000*W800*H1691mm
