

YN-6040AF+BSE5040A Automatic Sleeve Shrink Wrapping Machine

Automatic sleeve shrink wrapping machine is perfect for the heat shrinking packaging of bottled products (w/o) bottom bracket, such as glass bottles beverages cans, mineral water beer and medical drugs.

Products Description

1. Automatic sleeve shrink wrapping machine is perfect for the heat shrinking packaging of bottled products (w/o) bottom bracket, such as glass bottles beverages cans, mineral water beer and medical drugs. The packaged product is better in appearance
2. The automatic sleeve shrink wrapping machine can be assembled with constant temperature heat shrinking machine to achieve the perfect packaging effect.
3. The machine adopts human-computer interface with large-touch-screen, which is the most advanced in China. It also uses the world famous PLC program controller and the best performance pneumatic components. Other important devices are famous brands at home and abroad, which effectively protect the running performance of the whole machine
4. The automatic sleeve shrink wrapping machine is controlled by the upper and lower inductive proximity sensors can effectively prevent miscue packaging, also to ensure the safety of operation (up and down hot air circulation system to ensure a perfect packaging effect in one time, is the first choice for enterprise packaging.)
5. The best quality AC contractor perfectly combined with smart meters so that the system temperature is more stable. greatly extending the lifetime of the machine

Technical parameter

Model	YN-6040AF
Voltage	3phase220V/380V,50-60Hz
Power	110-220V/50-60Hz
Capacity	0-10 pcs/minute
Working air pressure	0.4-0.6Mpa
Width/thickness of the film	600mm/0.03-0.25mm
Max.sealing size	L600XW400mm
Min.packing dimension(L*W*H)	250x50x100mm
Machine size(L*W*H)	1060x1600x1930mm
Machine weight	370kg

Model	BSE5040A
Voltage	3phase 220V/380V,50-60Hz
Power	1.5KW
Heater power	20KW Adjuster
Convey speed	0-10 m/minute
Tunnel size(L*W*H)	1500x500x460mm
Conveyor loading	30KGS MAX.
Machine size(L*W*H)	2500x820x1680mm
Machine weight	470KGS
Shrink film	PE,POF,PVC,PP
