

SUNHAN

SH-TB852C Automatic Adhesive Carton Paper Box Right Angle Corner Printing Labeling Machine Label Corner Wrapping Applicator

Main Feature

- ▶ Designed for sticking labels at the corner of paper boxes, it can work with ERP/MES/SAP system to realize real-time printing function.
- ▶ This machine can flexibly adapt to label different specifications and sizes of carton.
- ▶ Suits different sizes of boxes, this machine can be customized as your product needs.

Parameter

- Machine voltage: 110/220V 50-60HZ 500W
- Suitable boxes size: customized
- Working capacity: 1-20 pieces/min
- Labeling accuracy: ± 1 mm
- Print width: <104mm
- Print length: <3810mm
- Label base paper width: 16mm-114mm
- Resolution: 300dpi (200dpi/600dpi are available)
- Ribbon width: 25.4mm-107mm
- Label roll inner diameter: 76mm (3 inches)
- Ribbon roll inner diameter: 25.4mm (1 inch)
- Paper thickness: 0.135mm-0.254mm
- Print type: Thermal printing/thermal transfer
- 300dpi print speed: 300mm/s (maximum)
- Air pressure: 0.6-0.8MPa(≥ 120 L/min)
- Machine size: About 950*900*1500mm(About 37.4*35.4*59inch)
