

KZL Series High Speed Granulator

KZL series High speed Granulator is widely used in pharmaceuticals, chemical industry, and foodstuffs with good stuffs and with good effect. It's designed reasonably with filter sieve and shaft. It can grind a block of fragile material that is easy to be smashed. The specialized friction filter cans grind solid particles on a big block according to centrifugal force principle. It can replace oscillating granulator.

Application

- Make dry or wet granule uniform.
- Crush and granulate blocks.
- Make granule from wet material.
- Crush heat sensitivity raw materials.

Technical Parameters:

Model	KZL-80	KZL-120	KZL-160	KZL-200
Length (mm)	185	185	185	185
Diameter of filter hole (mm)	1-8			
Product capacity (kg/h)	50-100	100-200	150-300	200-400
Motor power (kw)	0.55	1.1	1.5	2.2
Speed (r/min)	1500-3000	1000-1500	1000-1500	800-1000
Overall size (mm)	650x450x1000	1000x800x1200	1060x850x1350	1100x1000x1500
