

Weighing Filling Sealing Machine HLVN-520

Has been designed to meet the demand of large rates. Flexibility, ease of maintenance, ease of settings, synchronization with the power systems, flexibility, and quiet operation have been our priorities in the design of this machine. It provides an output up to 10-40 bags/minute.

Is a vertical system for stick packs, combining all the features of a solid construction, robust and reliable machine. The possibility of fitting different types of specific dosing units for granular products makes it an extremely versatile machine, suitable for all purposes.

Parameters:

Type	HLNV-520
Film width	250-520mm (maximum)
Bag length	80-350mm
Bag width	80-150mm
Film roll diameter	320mm (maximum)
Packaging speed	10-40bags/minute (according to the product conditions)
Range of measurement	150ml-2000ml
Power	220V, 50/60H,3kW
Machine size (L x W x H)	1492 x 1255x 2184mm
