CX-DTJ Automatic Wrap Around Labeling Machine

Suitable for drinks, food and other industries have localization features or bottles is bigger and heavier round bottles make circular orientation labeling requirements, can stick a double standard at the same time

Function Characteristics

● Adopt the import control system, servo or step in and out of the standard system, Japanese omron automatic test label standard stop high-end configuration, to ensure that equipment operation is stable, can according to customer's actual demand matching other brands.
● Adopt cylinder drive rotary bottle structure, turn three positioning way ensure excellent labeling parallel precision and positioning accuracy
● Main material is stainless steel and advanced aluminum alloy manufacturing,in line with the GMP standard production, firm structure, beautiful and easy

Technical Parameters

Voltage	AC110/220V, 50/60HZ
Labeling Speed	10-40 pcs/min
Object Size	30-280 mm(H), 20-150 mm(W)
Label Size	25-300 mm(L), 20-180 mm(W)
Driving Mode	Servo or Stepping Motor
Labeling Accuracy	± 1mm (depend on the evenness of the plane)
Printer to Use Air	5 kg/cm
Roll Size	Inner: Φ76 mm, Outer: Φ300 mm
Dimension	2000mm(L) × 1000mm(W) x 1360mm(H)
