

SF-20CC Automatic Rotary Nespresso Coffee Capsule K Cup Filling Sealing Machine

Automatic rotary coffee capsule K cup filling and sealing machine, suitable for ground coffee powder, instant coffee powder, milk powder, cocoa powder, tea powder, etc.

Features

1. Use touch screen to set machine parameters, support multiple languages, and easy to operate.
2. The filling volume and filling speed can be adjusted arbitrarily, and the filling accuracy is high.
3. Intelligent PLC control system ensures reliable operation of the machine.
4. PID independently controls the temperature, which is more suitable for different sealing film materials.
5. Multiple automatic alarm functions, no filling if there is no material, effectively reducing material loss.
6. New turntable design, small footprint, easy to detect and maintain.

Technical Parameters

Filling Heads Number	1 head	2 heads	4 heads
Production Capacity	800-1400cups/hour	1800-2400cups/hour	4000-4800cups/hour
Filling Range	5-20g (Can be customized)		
Power	220V, 50Hz, 1.5kw	220V, 50Hz, 2.2kw	220V, 50Hz, 4kw
Machine Size	1250(L)*1300(W)*1500(H) mm	1500(L)*1300(W)*1700(H) mm	2500(L)*1000(W)*1650(H) mm
Machine Weight	400kg	500kg	1000kg
Air Supply	1m/points, 0.6-0.75Mpa
