

JL-JG-series Roller Sorting Machine

Description

Product performance characteristics

1. This machine is mainly used for conveying round materials with a diameter larger than 25mm, which is convenient for manual picking and roller control.
2. Made of all stainless steel, in line with food hygiene standards.
3. The anti-card fruit roller conveys to ensure that the fruit rotates while being transported forward, maximally preventing missed inspection and sanitary corners.
4. It can be equipped with a front sprinkler to clean the fruit while the fruit is spinning.
5. Stable operation, low noise, and variable frequency speed regulation.
6. The fruit processing line can be combined with equipment such as hoist and washing machine.

Parameter

Model	Capacity(T/H)	Power(KW)	Dimension(mm)
JL-JG-600	1-3	1.1	3000x600x1300
JL-JG-800	3-5	1.5	4000x800x1300
JL-JG-1000	8-10	3	5000x1000x1300
JL-JG-1200	13-15	4	6000x1200x1300
