

SW-120/160/200 Rotary Automatic Vacuum Sealing Food Packing Machine

Product Details

1. Adopt new type of integration to simplified single-axis matching inner wheel groove cam structure of main part. Adopting electronic numerical control to control the vacuum heating seal.
2. When the bag is opened, it will be not be filled without heat sealing, when the bag is filled without material, the heating sealing station will not work, to avoiding wasting the bag.
3. Used the cylinder to control the sealing knife to run.
4. Full automatic metering filling and sealing.
5. The bag compartment has no bag automatic alarm.
6. The whole machine adopting mechanical control.
7. More reasonable overall size.
8. Wear resistant gears
9. Most of the whole machine adopt improved parts from Germany

Specification

Item	SW-120	SW-160	SW-200
Packing Speed	Max 60 bags / min		
Bag size	L80-180mm	L80-240mm	L150-300mm
	W50-120mm	W80-160mm	W120-200mm
Bag Type	Alumiem foil bag, Four-side sealed bag, Paper bag, Laminated bag, etc.		
Weighing Range	10g~200g	15~500g	20g~1kg
Measurement Accuracy	$\leq \pm 0.5 \sim 1.0\%$, depend on the measurement equipment and materials		
Maximem bag width	120mm	160mm	200mm
Gas consumption	0.8Mpa 0.3m ³ /min		
Total power/ voltage	10kw 380v 50/60hz	10kw 380v 50/60hz	10kw 380v 50/60hz
Air compressor	Not less than 1 CBM		
Dimension	L2100*W1400	L2500*W1550	L2600*W1900*
	*H1700mm	*H1700mm	H1700mm
Machine Weight	2000kg	2200kg	3000kg
