

JL-GP-series Bubbling Washing Machine

Description

Product performance characteristics

1. This machine is suitable for the cleaning of fruits and vegetables such as tomatoes, strawberries, apples and mangoes;
2. The unique bubbling surf design, combined with the 30Kpa high-pressure fan, allows the material to roll continuously while cleaning, ensuring thorough cleaning of the material and minimizing the material damage rate;
3. Rotating adjustable overflow port, multiple cleaning hand holes are installed on the side and rear to facilitate the cleaning of the box;
4. Adopt foreign imported anti-corrosion bearings, double-sided sealing;
5. Low operating cost, variable frequency speed regulation;
6. Stainless steel bracket, food grade hard plastic or stainless steel scraper, in line with food hygiene standards;
7. It can be used with the equipment group such as hoist and conveying pipeline to process the vegetable processing line.

Parameter

Model	Capacity(T/H)	Power(KW)	Dimension(mm)
JL-GP-750	1-3	4.4	4000x750x1800
JL-GP-1000	3-5	5.2	5000x1000x1800
JL-GP-1200	8-10	6	6000x1200x1800
JL-GP-1400	13-15	8.5	7000x1400x1800
