

## ***Double Chamber Vacuum Sealing Machine HVC-610/2SB***

HVC-610S/2B model has a large and durable stainless steel flat chamber bed for vacuum packaging applications requiring a combination of maximum air removal and faster production speeds. The two chambers allow one to be reloaded while the other is processing. It can optional equipped with a pneumatic lid that automatically opens and closes at the push of a button, maximizing operator efficiency, which is equipped with an industry leading vacuum pump and can also equipped busch pump optional.

### **Parameters:**

| Model                            | HVC-610S/2B             |
|----------------------------------|-------------------------|
| Voltage (V/Hz)                   | AC 380/50 220/50 110/60 |
| Motor power (W)                  | 1800                    |
| Sealing Power (W)                | 1000                    |
| Ultimate Vacuum Pressure (Kpa)   | 1                       |
| Sealing Width (mm)               | 10 or 2×3               |
| Chamber Dimension (L×W×H) (mm)   | 720×550×150             |
| Vacuum Pump capacity (m3/h)      | 2×20                    |
| Material for Vacuum Chamber      | SUS304                  |
| External Dimensions (L×W×H) (mm) | 1485×735×930            |
| Net Weight (Kg)                  | Approx.255              |
