

## *HW-820 Fully Automatic Vertical Packaging Machinery*

The packing machine is suitable to packaging powder, such as milk powder, coffee powder, tea powder, coffee powder, tea powder, face mark powder, spices, sweet flour, flour, etc

### **Feature:**

1. By screw machine complete measuring, filling, suitable for measuring powder material
2. The servo drive system, has the advantages of high precision, stable performance
3. Stainless steel open container clean and convenient.
4. Equipment with safety protection so as to meet the requirements of enterprise safety management
5. Intelligent temperature control, accurate temperature control, ensure nice, flat seal
6. PLC double pull or single tensile membrane structure chart system, motor sealing and cutting positions adopt automatic correction device
7. Constitute a large display touch screen drive control core, maximum limit to improve the control precision, reliability and the intellectualized degree of machine
8. The machine and measuring configuration can be done automatically measuring, feeding, filling bag, inflatable (exhaust), date printing, full packaging process and automatic cutting
9. Perfect automatic alarm protection function, minimize loss, help timely troubleshooting
10. Packing design diversified, back closure, angle, bag, punching

## Technical parameters

Type	HW-820
Packing material	15L
Bag length max	240 mm
Bag width	40-128(mm)
Max width of roll film	5-10(mm)
Packing speed	500(mm)
Measuring range	10-60 bag/min
Air consumption	opp/cpp opp/ce pet/pe
Gas consumption	620 mm
Power voltage	220VAC/50HZ
Machine power	6.5 kw
Dimension	1815L x 1520W x 2005H(mm)
Net weight	850 kg
