

## *BY series Coating Machine*

This machine is widely used in the coating, glazing and granulation of the pharmacy trade. It also can be used to ball object mould shape make in foodstuff and chemical industries.

### **Features**

- This coating pot is made of stainless steel, meet the GMP standard.
- Transmission steady, performance reliable.
- Convenient to wash and maintain.
- High thermal efficiency.
- It can produce the technological requirement and regulate coating in one pot of angle at the same time, and is easy to use.

### **Technical Parameters**

Model	BY200	BY300	BY400	BY600
Diameter of pot(mm)	200	300	400	600
Speed of pot(r/min)	0-46	0-46	0-46	0-40
Motor power(KW)	0.25	0.37	0.55	0.55
Heating wire power(W)		500	500	800
Blower power(W)		40	40	60
Capacity(kg/time)	1	2	5	15
Power of other heating(W)		500	500	600
Weight(kg)	60	65	70	120
Overall size(cm)	35x40x68	49x59x77	49x59x81	70x54x130

<b>Model</b>	<b>BY800</b>	<b>BY1000</b>	<b>BY1250</b>
Diameter of pot(mm)	800	1000	1250
Speed of pot(r/min)	0-32	0-32	0-28
Motor power(KW)	1.1	1.5	2.2
Heating wire power(W)	1000	1000	1000
Blower power(W)	250	250	250
Capacity(kg/time)	30-50	50-70	80-150
Power of other heating(W)	1000x2	1000x2	1000x2
Weight(kg)	240	280	450
Overall size(cm)	93x90x150	110x110x160	142x125x165
