

Sauce Packaging Machine

The Sauce Packaging Machine is an industrial machine designed for the automatic filling and packaging of liquid, paste, sauce, and cream items. This machine can handle various products such as milk, juice, honey, hair shampoo, tomato paste, salad dressing, jam, and more.

Our Sauce Packaging Machine is designed to deliver consistent and efficient performance. It has a robust construction that ensures durability and minimal downtime. The machine is also easy to operate, with a user-friendly interface that enables operators to control its functions with ease.

Product Function

The Sauce Packaging Machine performs the task of filling and packaging liquids, pastes, and sauces into containers of various sizes. It uses servo motors and sensors to ensure accurate filling and packaging, eliminating the risk of spills and wastage. The machine also has a high-speed packaging capacity that enables it to handle large volumes of products quickly.

Products Parameters

Model	WP-680YS
Lanes	4/6/8/10/12 lanes
Bag Style	4-side seal
Filling Accuracy	$\leq \pm 1\%$
Capacity	200-400 bag/min
Size of Bag	L50-200mm W20-80mm
Range of measure	1-100ml/bag
Voltage	AC 380v 3 phases 50Hz
Power	380V 28KW
Weight	480-880KG
