

## ***DX-5 Automatic Granule Packing Machine***

This machine is widely used to pack granular materials, such as coffee, sugar stick, sugar ground nuts, garlic, detergent powder, washing powder, salt, candies, Cashew nuts, granule, spice powder, beans, peanuts, sunflower seeds, popcorn, herbs, tea, salt, grains, desiccants, etc.

### **Main functional**

1. This machine can finish these work automatically: cup volumetric filler measuring--coding (option)--making bag--filling--gas injection/exhaust (option)--sealing--counting.
2. Computer/PLC control system, photoelectric tracking system, which improve the control precision, reliability and intelligence at the maximum limit.
3. Has fault display system, easy to operate and maintain.
4. Make punching blade(round/euro hole),link bag device or easy tear notch device or ribbon printer after customer's special request.
5. Touching material parts is made by 304stainless steel

### **Technical Parameters**

Model	DX-5 Automatic Granule Packing Machine
Making bag size	(L)30-170mm, (W)30-120mm
Packing material	PE/PET, PET/AL, FOIL/PE, Paper/Nylon, filter paper, etc.
Packing speed	25-60Bags/Min( Depend on the packing weight )
Power supply	1 phase 220V, 50-60Hz .
Dimension	625*750*1560 (mm)
Weight	200Kg
