

## *JW-A10/14 High Precision 14 Heads Waterproof Weighing Packaging Weigher for Frozen Food*

Waterproof multihead weigher is suitable for frozen salad, cooked food and frozen food etc.

### **Features**

1. Special load cell with high precision and high standard.
2. Program recovery function can reduce operation failures and support multi-segment weight calibration.
3. No products auto pause function can improve weighing stability and accuracy.
4. Linear amplitude can be adjusted independently.
5. Many languages available for global markets.
6. 100 programs capacity can meet various weighing requirements and user-friendly help menu contributes to easy operation.

### **Mechanical Character**

1. Ip66 waterproof case and automatic drainage pipe are adopted.
2. Adopt stainless steel to thicken the integral middle seat, which enhances the tightness.
3. The parts of the vibrator adopt the compact waterproof rubber sleeve, which can be washed directly with the high-pressure water gun.
4. Equipped with drying dewatering device to effectively prevent moisture damage.
5. Mold making process and uniform design standards contribute to better interchangeability for spare parts.

## Technical Specification

| Model                 | JW-A10                                           | JW-A14                  |
|-----------------------|--------------------------------------------------|-------------------------|
| Identify Code         | A10-1-19                                         | A14-1-19                |
| Weighing Range        | 10-1000g                                         | 10-1500g                |
| Accuracy              | X(0.5)                                           | X(0.5)                  |
| Max Speed             | 65P/M                                            | 120P/M                  |
| Hopper Volume         | 1.6L/2.5L                                        |                         |
| Control Panel         | 7"Touch Screen                                   |                         |
| Options               | Dimple Plate/Timing Hopper/Printer/Reject Device |                         |
| Driving System        | Step Motor                                       |                         |
| Power Requirement     | 220V/1000W/50/60Hz/12A                           | 220V/1500W/50/60Hz/12A  |
| Packing Dimension(mm) | 1620(L)x1100(W)x1110(H)                          | 1750(L)x1160(W)x1420(H) |
