

## HU-200 Medium Type Automatic Packaging Machine

200 medium type automatic packaging machine is designed for the packaging of puffed food, peanuts, melon seeds, candy, dried fruits, seeds, biscuits, sugar, monosodium glutamate, tea and other granular items. Optional devices: electronic weighing system, semi-automatic feeding device, spiral powder metering, measuring cup type metering.

### Features:

1. The machine is compact, firm, stable, easy to operate and easy to maintain.
2. This machine adopts programmable control system, large touch screen, intuitive and easy to understand.
3. Adopt servo film transport system, accurate positioning and beautiful packaging.
4. Fully automatic from metering, filling, bag making, date printing to product delivery.
5. According to the customer's needs, there is a single bag and multiple bag cutting function, and the punching device can be configured.

### Technical Parameters:

Model	HU-200
Air consumption	2.5 m <sup>3</sup> /min 6kg/cm <sup>2</sup>
Max. film width	120-380mm
Bag length	80-240mm
Bag width	50-180mm
Max. film roll diameter	Max.300mm
Packing speed	5-70 bags/min
Film thickness	0.04-0.08mm
Voltage	220V, 50/60Hz, 2.4KVA
Machine weight	350Kg
