

CDR-3A Semi Automatic Electronic Capsule Counting Machine

Application: widely used for counting and filling of capsules, pill, tablets.

Features:

- a. The number of capsules counted can be set up among 0~9999.
- b. Material: Stainless steel material for whole body in accordant with GMP specification.
- c. Easy to operate and no special training required.
- d. Precision pellet count with special electrical eye protection device.
- e. Rotary counting design with fast and smooth operation.
- f. The rotary pellet counting speed can be adjusted with automatic speed regulation according to the bottle putting speed manually.
- g. The interior of the machine is equipped with dust cleaner to avoid the dust effect on the machine.
- h. Vibration feeding design, the vibration frequency of the pellet hopper can be adjusted with automatic speed regulation based on the needs of the pellet carried.

Technical Specification:

Mode No:	CDR-3A
Size of tablet	The diameter is not more than 20mm
Size of capsules	000 to 5
Size of bottles	15-500ML
Dimension	82*83*35cm
Voltage	110-220V 50HZ-60HZ
Net Weight	65kg
Power	150W
Production Capacity	1000-2000 capsules per minute
