

WB-6050KFZ Automatic Flaps Folding Box Taping Machine

The machine automatically closes the four flaps, seals on the top and bottom, and do PP strapping per pre-programmed settings. With the machine integration, packing speed improvements achieved with less working space., which can operate alone and can also be equipped into production line.

Feature

- Sealing and strapping can be finished at the same time
- Lengthen both side of belts, side belts driven
- Automatically flaps folding top covers
- Manually adjust the width and height for sealing varying carton sizes

Automatic fold carton sealing strapping machine suit packing same size cartons, sealing the cartons with stick tape. Artificial positioning when the size of the cartons are changed, the upper cover and back cover folded automatically, flattening don't fold angle fold into fast. Cover of both side are smooth and beautiful, motors of both side catch the PVC tape automatically and pat, send into and seal cartons. It can finish up and down sealing in one step. This machine adopt pneumatic device achieve back cover fold automatic. It is reliable working, convenient operation and easily maintenance. This machine can be used single and used with automatic strapping machine and conveyor as a automatic sealing & strapping packing line. Stick tape sealing neatly, firm, regular, artistic, without tearing the cartons. This machine is widely used in food, beverage, cosmetics, household appliances, book, and textiles...other industries.

Application

The machine automatically close the four flaps, seals on the top and bottom, and do PP strapping per pre-programmed settings. With the machine integration, packing speed improvements achieved with less working space.

Technical Parameters

Model	WB-6050KFZ
Capacity	18 m/mins
Min carton size	L130 x W130 x H180mm
Max carton size	L600 x W500 x H500mm
Apply tape	W48-76mm
Applicable PP strap	W9-15mm, T0.55-0.8mm
Height of work table	630-820mm
Strap width	6, 8, 9, 10, 12, 12.7, 15.5, 18, 19
Strap dispenser	coil core ID. 200, 230, 280, 406mm adjustablecoil width 190 - 230
Strapping Speed	26times/min
Air pressure	2/3L, 5Kgf/cm ²
Power Supply	220V/380 V 50HZ;
Power	1.0kw
Overall Dimension	2900 * 1450 * 1700mm
Net Weight	400kg
