

LFUT-08/12 Turntable

LFUT-08/12 turntable is applicable to automatic sorting and durable round bottle range, which are mainly used in pharmaceutical, health care, food and other industries.

Easy machine operation, installation, transportation, low maintenance and convenient removal, etc. The speed of the machine is adjustable and has bottle feeding and bottle accumulation functions to meet various customer requirements.

The turntable can be attached with an electric/capsule automatic counter, capper, sealer, labeler and cartoner to accumulate on a complete packaging line. It can also be used with other machines in the industry.

Technical Parameters

Model	LFUT-08/12
Max. speed	10RPM
Outside diameter of bottling machine	Square Bottle 25~100mm
	Round bottle $\Phi 20 \sim \Phi 100$ mm
Bottling Machine Height	30~180mm
Compressed Air Pressure	N/A
Compressed air consumption	N/A
Power	AC220V 50Hz/60Hz 120W
Physical Dimensions	Aprox.920(L)×860mm(W)×1100mm(H)
Weight	Approx.220Kg
