

## *Ketchup Packet Machine*

This machine has mechanical advantages suitable for viscous liquid projects, and its performance is efficient and reliable.

The VFFS Packaging Machine is a highly efficient industrial machinery that is mainly used for packaging liquid or paste in small sachets at high speed. It is suitable for packaging a wide range of products, including shampoo, lotion, hand washing, liquid soap, liquid flavors, juice, oil, jam, honey, and more.

### **Product Features**

The VFFS Packaging Machine is known for its exceptional features. It has a high-speed packing capacity that allows it to pack up to 120 sachets per minute. It also has an automatic control system that ensures consistent and accurate filling. The machine is made of high-quality stainless steel, which makes it durable and easy to maintain.

### **Application Industries**

The VFFS Packaging Machine is widely used in various industries, including food and beverage, pharmaceuticals, and cosmetics. It is suitable for packaging a wide range of products, including liquid and paste.

## Products Parameters

Model	WP-680YS
Lanes	4/6/8/10/12 lanes
Bag Style	3-side seal
Filling Accuracy	$\leq \pm 1\%$
Capacity	200-400 bag/min
Size of Bag	L50-200mm W20-80mm
Range of measure	1-100ml/bag
Voltage	AC 380v 3 phases 50Hz
Power	380V 28KW
Weight	480-880KG
