

High Precision Fully Automatic Capsule Filling Machine
NJP-3200, 3800B/C/E

NJP-3200 and 3800 Series automatic hard capsule filling machines are suitable for mass production.

- The equipment is a kind of intermittent action, and the automatic filling equipment of the hole filling type automatic hard capsule is completely closed and convenient for filling and rotating parts.
- Upper and lower modules one-way movement, import double lip polyurethane sealing ring, good sealing performance;
- Module cleaning station combines blowing and inspiring to ensure high-speed operation without dust.
- The locking station is equipped with a powder suction device.
- The finished product out of the pocket has a balloon ring, no dust flying.

Technical Parameters:

Model	NJP-3200B/C/E	NJP-3800B/C/E
Filling form	Powder, granule, tablet	Powder, granule, tablet
Suitable capsule model	(00#-5# capsule / safety capsule A-E)	
Maximum yield	192,000 tablets / hour	228,000 tablets / hour
Power requirements	380V 50Hz 4.77kw	380V 50Hz 6.37kw
Noise index	≤78dBA	≤78dBA
Outer size	1440×1300×2080mm	1440×1300×2080mm
Machine net weight	2400kg	2400kg
