

MD-JL60-02 Double Row Capsule Coffee Filling Machine

This product is an economical and affordable filling machine carefully designed for pharmaceutical, health care products, and coffee filling. This type of coffee capsule packaging machine adopts a PLC programming control system, touch panel operation, step-less frequency conversion speed regulation, and pneumatic joint control. It can automatically complete cup loading, feeding, measuring, vacuuming, film removal, sealing, upper cover, etc. Capping, counting, and other functions.

Features

1. Max. Bpm up to 80.
2. Divider conveyor module system.
3. Servo screw measurement, high weight accuracy.
4. Modular design of mechanism for easy replacement.
5. Automatic alarm and shut down for production and safety errors.
6. Closed working environment, safe and reliable.

Parameters

Model	MD-JN60-02		
Measurement Method	Screw Filler		
Production Efficiency	60-80 bags/min		
Packing Materials	Fine powder		
Packing Accuracy	±0.2g (Depending On Material Conditions)		
Power Supply	4kW/220V	Air Consumption/Pressure	6-8bar/0.2mm ³ /min
Machine Dimensions (L.W.H)	2350mm*1075mm*2310mm	Machine Weight	600kg
