

DK-220XSE Servo Lower Paper Feeding Packaging Machine

Dustial Machinery® is a Chinese manufacturer specializing in the production of servo down feeding paper packaging machines. The key parts of the machine adopt stainless steel structure, which meets the food QS and pharmaceutical GMP health standards; Dual frequency conversion control, automatic memory and storage of 12 sets of packaging parameters, rapid replacement of packaging, convenient and efficient, with excellent performance; High sensitivity electric eye automatic tracking, no manual adjustment after setting, accurate sealing and cutting size and position, firm and beautiful sealing; Independent PID intelligent temperature control, stable temperature control, better suitable for various packaging materials; Color touch screen display, positioning shutdown, automatic fault diagnosis function, display at a glance; Automatic production counting, quantitative production, accurate and clear packaging output; Simple mechanical design and transmission system, more reliable operation, and more convenient maintenance; According to the user's product packaging requirements, it can be equipped with a nitrogen filled or mixed gas, production date marking system; The downward paper feeding mechanism has two feeding methods: pushing block feeding and packaging film direct feeding.

Specifications

Type	DK-220XSE
Film width	Max 220mm
Bag length	50-6000mm
Bag width	30-100mm
Product height	5-35mm
Film roll diameter	Max 300mm
Packaging speed	25-230 bag/min
Packaging materials	OPP,OPP/CPP,KOP/CPP,ALU-FILM
Power	220V,50/60Hz,3.9KW
Machine size	(L)3940×(W)880×(H)1520
Machine weight	440Kg
