

DFXS-7050 Automatic Carton Sealing Packing Machine

Automatic four side sealing machine uses adhesive tape to stick on the carton parallel 4 edges and 8 corner, it is high efficiency with beautiful sealing result.

Technical characteristic

1. The automatic carton sealing packing machine adopts automatic system, equipped with photoelectric detection, with automatic, automatic alarm, etc, can realize unmanned automated operation
2. The automatic carton sealing packing machine is easy to transform the product specifications, easy to operate
3. The automatic carton sealing packing machine can be used directly with a production line
4. High quality international brand electrical components, quality is reliable
5. FXS5050 four side sealing machine adopts new sealing head structure, good sealing effect, stable With long lifetime
6. The whole machine is firm structure, the guide bar positioning reliable and simple maintenance
