

YJB-40 Tablet Wrapping Machine

YJB-40 tablet wrapping machine is designed for wrapping in one roll with several pieces of tablets by aluminum foil and paper laminated material. YJB-40 tablet wrapping machine is controlled by PLC and it is very stable and reliable, and easy to operate and maintain.

YJB-40 tablet wrapping machine can run fully automatically, warning and stop function for no wrapping paper and no tablet, all tablets touching material adopts excellent SUS304 stainless steel (or SUS316). Other steel material are enamel paint or Alloy. YJB-40 tablet wrapping machine can connect PZG-40 Effervescent Tablet Packaging Machine and GTB-60 tube labeling machine as an automatic production line.

Technical Parameters:

Model	YJB-40
Voltage	220V; 50/60Hz
Power	0.8kW
Quantity per roll	10-20pcs
Purified & Compressed air	0.5-0.6MPa
Consumption	0.2m ³ /minute
Capacity	30-40 rolls/minute
Weight	500KG
Dimensions (L*W*H)	2300x1200x1600
