

BS-560D High Speed Automatic L-bar Shrink Packaging Machine

This Shrink Wrap System automatically seals and shrinks your products thereby maximizing the speed at which you complete your packaging jobs. Suitable for medicine, food, chemical, cosmetics, auto parts and other items of individual or collective heat shrinkable film packaging. Automatically complete packaging film bagging, sealing, shrinking etc.

Technical Parameters

Packaging material	PO, POF triple extrusion environmental protection shrink film
Packaging material size	0.012~0.05*200~550 mm(thickness*width)
Packaging material roll diameter	Max.250 mm
Power supply	380V/50HZ or 220V/60HZ
Total power	13.35KW
Air pressure	0.5mpa
Capacity	15m/min
Max. Packaging height	150mm
Sealing size	Length no limit, width: 450mm
Max. Packaging size	400*320*125mm,W+H<400mm(L*W*H)
Overall dimension	3350*800*1450mm(L*W*H)
Machine weight	450kgs
Machine main material	carbon steel spray treatment
