

XTBZ003 Vacuum Packing Machine

This vacuum packaging machine has automatic processing functions such as vacuuming, sealing, and cooling. It is suitable for vacuum packaging in food, medicine, aquatic products, chemicals, electronics and other industries. It can prevent product oxidation, mildew, corrosion, moisture, maintain quality and freshness, and extend storage period.

Parameters

Type :	Vacuum Packing Machine
Vacuum pump power :	900W
Heat seal size:	40*2CM
Vacuum chamber material:	stainless steel
Pumping rate:	20m ³ /H
Vacuum chamber size :	40*44*12CM
Dimensions :	55*55*72CM
