

Automatic Spring Roll and Samosa Pastry Sheet Machine SRP Series

SRP Automatic Spring Roll and Samosa Pastry Sheet Machine is a food processing machine for automatically producing spring roll wrapper, samosa pastry, egg roll pastry, and even crepe. Simply prepare batter and the SRP Series will automatically finish the rest of steps, including baking, cutting, counting, and stacking. Finally, the baked pastries are nicely stacked in piles, ready to be packed, frozen, and sold at any time. It is also a samosa pastry machine. Samosa pastries can be made with the same process except that the way of cutting is different.

Features:

- Micro-computer temperature controller can maintain a set temperature within $\pm 1^{\circ}\text{C}$. The baking drum is covered by a safety guard to keep from being injured by the heat. Simply feed the well-mixed batter into hopper, machine will spray and bake batter, then cool, cut, count and stack pastry sheets automatically.
- MIXING -> FEEDING -> BAKING -> CUTTING -> COUNTING -> STACKING
- High capacity and uniform products

Technical Parameters:

- Dimension: 5,500 (L) x 1,300 (W) x 1,900 (H) mm
- Power: 45A (35 kW), 45B (38 kW)
- Capacity (pastry of 200 x 200 mm): 2,700 pcs/hr, 9 m/min
- Thickness of pastry sheet: 0.4–0.8 mm
- Including 2.5 m cooling conveyor, rotary cutter and counting device, and stacking conveyor
