Its work program is vacuuming, sealing, printing, cooling, back to the gas, turn on the vacuum cover.
2. This product is suitable for vacuum packaging of food, aquatic products, chemical raw materials, electronic components, and other products. It can prevent product oxidation, mildew, and corrosion. Moisture-proof, quality-preserving, fresh-keeping, extending the shelf life of the product.

### **Parameters**

Model	LYBZ004
Power	220V /110V 50/60HZ
Vacuum pump power	370W
Sealing power	200W
Pressure	1Kpa
Vacuum chamber size	340*300*50mm
Sealing size	260*8mm
Weight	35KG
Machine size	480*330*360mm
