Rotary Label Sticking Machine GF-RF-01

Features:

1. Wide range of application.

It is suitable for the single/double/multi-sides of the round bottle, square bottle and irregular bottle.

2. The labeling effect is good:

The biggest characteristic of this equipment is the imitation of human labeling, completely subvert the traditional way of labeling, thoroughly solved the problem, spherical stick mark wrinkle make possible differentiated product labeling.

3. High positioning accuracy:

Using mechanical rotating positioning, advantage of the characteristics of the bottle itself looking for anchor point, greatly improve the stick mark stability and accuracy.

4. Easy to adjust:

Send the device can be adjusted 8 d, especially suitable for a bottle type of the taper, and change the different size of the product is simple and easy to adjust, need not use tools. to avoid bad labeling affect caused by machine shaking, all direction adjusting modules will be locked after the machine finish adjusting. So it will insure the production process smoothly and the labeling location consistently.

5. Good stability.

a. Machining parts material guarantee:

The machine is made of high quality raw materials. The parts use high quality aluminum, steel and imported nylon.

b. Advanced processing equipment:

main parts professional factory uses in all Polytechnic high precision processing to complete, the main parts in the machining process will be used in the highest level of detection methods for quality control, in order to obtain the highest quality and highest-precision parts, reduction of machine vibration at high speeds

c. Using famous brand spare parts.

d. Using world first-class brand electrical accessories.

e. Novel structure. Main designers have more than 10 years design experience in this field. Each component are through strict aging test.

6. Efficient production:

The speed is up to 24000bottle/hour. High speed labeling fluency. It can match front and end seamless butt joint and improve production efficiency.

Model	GF-RL-01
Labeling position	12,15,18,24 position, according to the customer's
	production requirements
Production speed	0~24000 (PCS/H) Can do 1 to 3 labels
Labeling accuracy	±1mm
Bottle diameter	Φ40~100 mm,Bottle High:20~380mm
Adhesive label width	20~180mm
Adhesive label High	20~200mm
Label outer diameter	Φ450mm
Label inner diameter	Φ76.2mm
Power	380V 50Hz 5000W—7000W
Outline Size (L*W*H)	2850*2600*2000mm (24 position)
Weight	2000KG-5000KG, Depends on different models
