

Shrink Tunnel Machine CE-4525A/BS

Description:

- It's adopts hot-wind & down-cyclone structure, the height of the stove tunnel, the speed and the two sides shutter are adjustable. Further it also fixes advanced intelligence temperature control. Conveyor is alternative with roller or Teflon mesh.
- CE4525A/BS has a single hot wind tunnel, and the CE-6535LA/BS is designed into double hot wind and prolonged tunnels for better shrinking effect.
- It's suitable for PVC, POF, PP shrink film.

Technical Parameter:

Model	CE-4525A/BS	CE-4535LA/BS	CE-6535LA/BS
	220/50(Single phase)	380/50(3phases)	
Voltage(V/Hz)	380/50(3phases)	220/60(3 phases)	
	220/60(3 phases)		
Power(kw)	6.5	9.6	12.8
Loading(kg)	10	30	
Speed(m/min)	0~10		
Stove Size(L×W×H)(mm)	900×450×(50~250)	1200×450×(50~350)	1200×650×(50~350)
Dimension(L×W×H)(mm)	1200×650×1240	1200×650×1340	1200×850×1340
Net Weight(kg)	90	120	150
