

WP-480K-4 Irregular Shape Honey Packing Machine

Equipped with advanced filling systems, the irregular shape honey packing machine accurately dispenses the desired amount of honey into each pouch, ensuring uniform product weight and volume. This precision helps maintain brand consistency and customer satisfaction.

Irregular Shape Honey Packing Machine

1. Equipped with high-precision pumps, the filling system dispenses honey into the waiting sachets. This process is highly accurate, minimizing waste and ensuring customers receive the exact amount they expect.
2. The irregular shape honey packing machine is capable of handling a diverse range of sachet sizes, shapes, and materials, allowing you to tailor your packaging to suit your brand and target market. Whether you prefer clear, transparent pouches to showcase the honey's color and viscosity, or opaque pouches for added protection and branding, the machine can accommodate your needs.
3. Within the food processing sector, the irregular shape honey packing machine is essential for efficiently packaging honey in convenient, portion-controlled sachets. This facilitates easy handling, storage, and distribution of honey-based products.

Products Parameters

Model	WP-480K-4
Capacity	35-50 pcs/minute/line
Filling Range	1-20g
Size	长(L)30-150宽(W)70-110mm
Power	4500W
Voltage	220V/380V 50-60Hz
Weight	850kg
Dimension	1353*900*2550(mm)(L*W*H)
