- Error position display at the control panel
- Control panel locate on the right side top of the machine
- Outside of the machine and all the parts which touch production all made by stainless steel
- There are several safety doors made by aluminum Profile Frame

Technical Parameters

Model : SF-2000

FILLING RANGE : 1kg~2kg/BAG

PACKING SPEED : 20-25 BAGS/MIN

ACCURACY : $\pm 1\%$

POWER : 30kW

NEGATIVE PRESSURE: -0.8kpa

COMPRESSED AIR : ≥ 0.6 Mpa

FILLING STATION : WIDTH : 80~110 HIGH 250~350

BAG SIZE : W 70~78MM、H 80~ 110MM、L250~ 350MM

OVERALL SIZE : 5500×4200×2750mm

MACHINE WIGHER : 5500kg
