

CSH-F Semi-automatic Ointment Filling Machine

The ointment filling equipment is semi-automatic volumetric filler for high cohesion material such as gel, cream and etc.

By applying the piston filling method is capable to stabilize volume accuracy and minimize deviation.

With the storage tank heating system can keep material flow stable to reduce risks influencing the machine performance.

Specification

Model	CSH-F Semi-Automatic Ointment Filling Machine
Filling Volume	5ml-60ml, 30ml-150ml, 100ml-500ml
Working Capacity	10-30 bottles/min (Based on filling volume)
Power Consumption	220V single phase, 50/60HZ
Air Consumption	@ 6 Bars
Machine Dimensions (LxWxH)	505x655x1825 (mm)
Machine Weight	150KGS
