

SF-32S Fully Automatic Inner and Outer Green Tea Leaves Sachet Bag Packaging Packing Machine

The machine can automatically make tea stick, suitable for green tea, black tea, oolong tea, dark tea, ginger tea, jasmine tea, rose tea, chamomile tea, scented tea, medicinal tea, barley tea, wolfberry, coffee, fruit tea and other granular materials.

Feature

1. It has the function of auto filling, measuring, bag forming, sealing and cutting. Bag-making system adopts step motor with high precision (error is less than 1mm).
2. The machine can complete the production of inner and outer bags at the same time, and put the inner bag into the outer bag.
3. It has PLC control with stable biaxial high accuracy output and color touch screen. It supports multiple languages and can store multiple parameters.
4. To ensure the same length of each bag, high sensitive electro-optical sensor system is provide to realize automatic a lignment on the packing film.
5. Adopting new structure technology, the machine is sturdy and durable, and the maintenance is simple and convenient.

Specification

Model	SF-32S
Bag size	L: 30-140mm, W: 20-35mm
Bag type	Perforated inner bag and stick outer bag
Film thickness	0.04-0.12mm
Packing speed	20-40 bags/min
Machine size	1200(L)*1000(W)*2500(H)mm
Weight	850kg
Power	380V, 50Hz, 2kw
