

YN -7540+BSE-6040A Semi Auto Shrink Sleeve Machine

Semi auto shrink sleeve machine is suitable for wrapping of such products as carton, bricks object, square object, round bottles etc with both bottom-tray and without bottom-tray. Working with PE shrink oven to pack the goods perfectly. The whole producing process adopt the Germany advanced technical. And the main parts are imported from international famous companies such as OMRON. MITSUBISHI. FUJI, etc, capability stable and using long-time.

Technical Parameters

Model	YN -7540	BSE -6040A
Voltage	AC 110-220/50- -60Hz	380V/50HZ
Power	1.5kw	20KW
Max packing dimension	400x400x380mm	W600xH400xL Unlimited
Mini packing size	/	
Packing Speed	5-8 pieces/minute	1 5m/min
Sealing time/Shrink time/Temperature	0-200°C	0-300°C
Width/Thickness of the Film	0.03-0.25MM	0.03-0.25MM
Air pressure of working	0.5-0.7Mpa	
Shrink film		PE POF PVC
Dimension		3200 x 850 x 1580mm
Gross weight	300KG	380KG
