

D200 Auto Cold Glue Labeling Machine

Function:

It is applied for the long or circle labeling, delivering labels, delivering bottles, pasting and labeling are finished at a time automatically. Operation easily, the place of labeling is uniform and orderly. It can use the common paper label and debases the producing cost.

Technical Parameter:

- 1) Object to Apply: column form containers
- 2) Container Range (mm): Ø30-Ø90 Height: 50-300
- 3) Label Range (mm): Length 20-260 Height: 30-110
- 4) Label Speed (It bears on the size of the container and label) (pcs/ min): 0-120
- 5) Label Precision (mm): ± 1.5
- 6) Power: 220V 50HZ 1.8KW
- 7) Air Power: 5 kg/cm²
- 8) Weight (kg): 500
- 9) Measurement (mm)(Length*Width*Height): 2400*1000*1200

Main Character:

It is adopted backset pump and has the strong suction;
It is adopted the scow to separate the bottles and the function of labeling is more jar less;
It can use stand-alone or join the production line.
Adopt import electric components;
Adopt 304 stainless steel and alloy which is dialed with anodic oxidation except the shelf
