

## Automatic Screw Pillow Bag Weighing and Counting Packing Machine

1. It's suitable for packing materials as follows:

- Fittings (screw, nut, washer, nail, pipes, joint etc.),
- Pharma (tablets, capsule etc.),
- Food(candy, biscuit etc.),
- Furniture spare parts, hardwares, machinery and appliance spare parts,
- Clothes parts (button, slider etc.)
- And other solid material.

It can pack the same material or mix the materials in bags or cartons by quantity.

2. Used to packing the fittings in bulk quantity, such as 50-5000 pcs/batch, using weighing system to get the 90% quantity and use counter to add the rest. It can ensure a higher speed and precision.

3. It also can be added two scales to work faster if the speed needs higher.

### Technical Parameters:

Packing material	OPP/CPP, PA/PE, PET/PE etc.
Counting capacity	1-5000 pcs/bag
Bag type	Pillow bag, back sealed bag, four/three sides sealed bag
Film width (Max.)	300mm
Production capacity	5-25 bags/min
Packing size	L(30-160)* W(50-140)mm (can be customized)
Power	220/50HZ, 4.5KW
Compressed air	0.6-0.8Mpa
