

## *Flow Wrapping Machine DZB-250 / 350*

Flow Wrapping Machine is mainly applied to the packaging of blisters, biscuit, betel nut, snowy biscuit, snowy ice-lolly, yolk pie, instant noodles, chocolate, candy, western snacks, tableware for aerial food, transparent soap, hotel articles, wet towel, gauze mask, IC card, cartoon card, electric components, trademark, little hardware etc. block-shaped things in the industries such as food, daily chemistry, cosmetics, hardware, electronics etc.

### **Features:**

- Color touch screen display, PLC/computer control, automatic and fast photoelectric track.
- The bag length no need to be set, machine could detect it automatically.
- Machine has high performance, simple operation and fast packing speed.
- Gear system besides double frequency converter controller, which making machine simpler operation, high-speed and stable performance.

Technical Parameters:

Model		DZB-250	DZB-350
Capacity (bags/min)		35-180	35-180
Width of film (mm)		90-250	90-350
Making bag size (mm)	Double low cutter	L (65-190), W(30-110),	L (65-190), W(30-160),
		H(5-50)	H(5-50)
	Double high cutter	L(90-220), W(30-110), H(5-60)	L(90-220), W(30-160), H(5-60)
	Single high cutter	L(150-330), W(30-110),	L(150-330), W(30-160),
		H(5-60)	H(5-60)
Total power (KW)		2.4	2.4
Power supply		220V, 50/60Hz	
Dimensions (mm)		4000x850x1500	4000x950x1500
Weight (kg)		400	500
