

XY-800AF Powder Packing Machine

Model XY-800AF is our Powder Packing Machine. It is used for bag packing of powdery materials such as Traditional Chinese medicine powder, five grain flour, flour, starch and so on.

Performance Characteristics

1. The special screw metering machine for powder works in conjunction with the packaging machine to realize the full automation of the metering, dispensing and sealing process of the packaged products.
2. The use of servo drive systems in machines provides exceptional precision and consistent, stable performance.
3. Keeping stainless steel open silos clean is effortless.
4. This machine has taken security measures that comply with corporate security management standards.
5. Through the use of intelligent temperature controllers, the accuracy of temperature control is improved, resulting in an impeccably smooth and aesthetically pleasing seal.
6. The incorporation of touch screen control optimizes the precision control, reliability and international applicability of the whole system.

Application

Automatic measurement and packaging for powdery materials such as Traditional Chinese medicine powder, five grain flour, flour, starch and so on.

Technical Parameters

Model NO.	XY-800AF
Measurement range	50-500g(Can be customized)
Measurement accuracy	±0.1g
Packing speed	25-40 bags/min
Bag size	L 100-260 xW 60-160 (mm)
Packing material	PET/PE, OPP/PE, Aluminium coated film and other heat-sealable composite materials
Power	2.8 KW
Dimension	L 1100 X W 900XH 1900 (mm)
Weight	450Kg
